

Volatile liquid trap

For installation in a concrete floor/slab

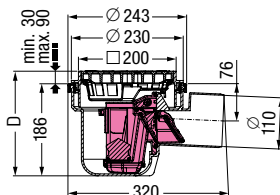

EN 13564 Typ 5

Made in polymer. With twin flap backwater valve, with integrated odour trap and sludge trap. Drainage capacity 1.0 l/sec flow rate. Sealing water height 50 mm. Installation area 400×250 mm

Cover:

Slotted cover 188×188 mm made of polymer, black, class K 3

➤ **Accessories:** pages 296 – 300

Outer diameter Ø (mm)	Installation depth D in mm	Art. no.
Ø 110	216 - 276	52 101

Volatile liquid trap

For installation in a concrete floor/slab

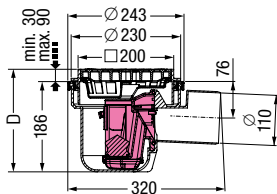

EN 1253-5
